

## Superior Performance for all Industrial Applications

Using our proprietary XPL+ technology, this extreme pressure formulation reduces friction, heat and wear to dramatically increase production efficiency and extend the working life of gears, cams and dies.

### APPLICATIONS

- Cold-heading
- Stamping
- Slitting machines
- Threading
- Compressors, generators
- Pumps, gear boxes
- Heavy chains & sprockets
- Ball & roller bearings

### BOTTOM LINE BENEFITS:

- Improves speed & feed rates
- Improves surface finishes
- Reduces down time
- Cuts down wear & tear
- Less power consumption
- Reduces smoke & noise
- Extends machine life

**Concentrate**

**Use at 10% by total volume.**

PART NUMBER	SIZE	CASE PACK
12001	1 Gallon	4
12005	5 Gallon pail	1
12055	55 Gallon drum	1
